
Title: Spurned to action

Author: Isk

Before me I see the
curious and the believers,
those who doubt and
those who hold true to
the righteous path. The
recent Regency election
has spurned us to action,
everyday a portion of our
ancestry is blown away by
the winds of change. The
growing elfification of
Sosaria has produced
nothing but a decline of
Human culture, replacing
it slowly by elven belief
systems. With a half elf
on the throne, an elven
princess in bed with the
lord of Sanctus and the
drow at the ear of the
Brotherhood we, the
Humanis see that the
elves are using Humans
as their war tools.
My brothers, we have
always remained out of
aggressive wars and
territorial conflicts due
to our own morality and
because we felt there
was reason to hope for a
peaceful solution. However,
the recent events have
escalated Humanity's
plight. In our arrogance
we thought we could
remain whole and wait for
the Philosophe to fix
things upon his blessed
coming, we know now that
our actions, our movement
outwards from Magincia
will bring the promised
dawn. Not as an invading
power but as a political
movement, a religion, a
righteous unification of all
that is pure and good

shall we usher from the
shores of this great city
and inspire the chosen to
vehemently call out in one
unified voice with fists in
the air the divine truths
which are illuminated in
our Humanis Manifesto.
On this grand occasion I
hold it upon myself to
canonize our first
Humanis saints who have
passed or disappeared
from this land after
doing great service to
our kind.

Rune Artisem, for the
establishment of the
Artisem laws in the fallen
land of Caina and Skara
Brae will from hence
onwards be known as the
Humanis patron saint of
law.

And secondly Antonius
Victor, the stillborn child
of Nothus and Kinna
Victor who's death
touched the heart of
Magincia will from hence
onwards be known as the
Humanis saint of
Protection for it is said
that his ghost keeps
guard over our blessed
island.

It is my great pleasure
to introduce to you now,
our mayor Hector who
without opposition has
been appointed to another
term in office. Like saint
Antonius protects us it
is Hector who keeps
Magincia a shining example
of Human achievement.
